## SUMMARY

---

I am a product designer spent 4 years crafting user-centered interfaces, skilled at multi-device, interaction prototyping, and solving challenging problem.

## EXPERIENCE

---

### UX/UI Designer / [SafeAI](#)

Feb 2023 – Present (Sunnyvale, CA)

**Zeno**: Led several key redesigns & new features to create a better autonomous vehicle **fleet management user experience**, and supported UX/product leadership in startup culture.

**Flux**: Crafted and shipped a brand new **tablet** software on autonomous vehicles, including **design system, branding**, and **in-vehicle interaction design**. Coordinated with engineering team to deliver the product 0 to 1 under 4 months.

### Product Designer / [PhotoUSA](#)

July 2020 - Feb 2023 (Fremont, CA)

**PrintversePro**: Increased online store's repeating & new customers by **34%** by simplifying reorder and integration process.

**Fulfillment Order Management Dashboard**: Improved team efficiency & reduced shipping mistakes by redesigning the fulfillment dashboard, which shipped **1M+** orders during the holiday pandemic with company's new fulfillment expansion.

**Inventory**: Resolved existing **warehouse logistic problems** by reinventing the real-time inventory system with QuickBooks.

### Web developer Intern / [PLTW](#)

Summer 2019 (Indiapolis, IN)

Worked with designers to build **interactive** games with **html, css, JavaScript, React** for STEM K12 students.

### Digital Communications Intern / [Intel](#)

Summer 2016 (Chengdu, CN)

Grew company culture via employee **interviews** and creating media contents (writing, photography, video) for the public.
